

Arti Borad

Node.js Backend Developer | TypeScript | AWS | Microservices

artiborad0812@gmail.com · +91 78745 09801 · India

PROFILE

Backend Developer with 4+ years of experience designing and shipping scalable, secure backend systems using **Node.js**, **TypeScript**, and **NestJS**. Proven expertise in serverless architecture (AWS Lambda), microservices, REST & GraphQL APIs, real-time WebSocket systems, and database optimisation. Comfortable working independently in remote-first environments, with a strong focus on clean architecture, performance, and real-world problem solving.

EXPERIENCE

Backend Developer · Squillion Tech

April 2025 – Present

- Architecting scalable **microservices-based APIs** for enterprise logistics and vehicle management platforms serving 5,000+ daily active users.
- Implemented granular **role-based access control (RBAC)** with module-level permissions using TypeScript and NestJS.
- Designed **AWS S3** integration for secure image uploads, supporting both private and public bucket access policies.
- Reduced API response times by **~40%** by introducing Redis caching across high-traffic endpoints.

Backend Developer · Scriptus Solutions Pvt. Ltd.

July 2023 – April 2025

- Designed and delivered production-grade APIs using **Node.js**, **TypeScript**, **NestJS**, and **AWS Lambda** (serverless).
- Built real-time communication features via **WebSockets / Socket.IO**, supporting 500+ concurrent connections.
- Implemented secure authentication using **JWT** and **AWS Cognito** across multiple client applications.
- Optimised PostgreSQL and MongoDB queries, improving average API response time by **30%**.
- Conducted peer code reviews and refactored legacy modules to reduce technical debt and improve maintainability.

Backend Developer · Ciphernutz IT Services

July 2022 – February 2023

- Built REST APIs with **Node.js** and **Express.js**; integrated third-party services and documented endpoints using Swagger.
- Implemented cron jobs and automated email workflows, reducing manual operations by **~60%**.
- Managed **MongoDB Atlas** for cloud-hosted database operations including schema design and query optimisation.
- Integrated **Elasticsearch** for full-text search, cutting search query latency by 50%.

Backend Developer · Glory AutoTech

December 2021 – July 2022

- Built backend APIs for automation and chatbot platforms; implemented scheduled tasks and notification workflows.
- Contributed to API design and Swagger documentation, improving onboarding speed for frontend and QA teams.

SKILLS

Languages	TypeScript, JavaScript (ES6+)
Backend	Node.js, Express.js, NestJS, REST APIs, GraphQL, WebSockets, Microservices
Cloud & DevOps	AWS Lambda, S3, SNS, SQS, Cognito · Docker · GitHub Actions (CI/CD)
Databases	PostgreSQL, MongoDB, MySQL, Redis, Elasticsearch, ClickHouse
Tools	Swagger · Postman · Git · Jira · TypeORM · JWT · Puppeteer · Cron Jobs

KEY PROJECTS

Gigalty — Real Estate Platform

NestJS · AWS Lambda · WebSockets · PostgreSQL

- Designed database schema and serverless APIs; built real-time buyer-owner chat (WebSockets) supporting concurrent sessions.

Acumen — Vehicle & Compound Management System

[Node.js](#) · [TypeScript](#) · [PostgreSQL](#) · [Redis](#)

- End-to-end vehicle lifecycle management (arrival → inspection → dispatch) with RBAC for multi-tenant data isolation.

Cellular Shock — Bulk Electronics Platform

[Node.js](#) · [MongoDB](#) · [Redis](#)

- Built backend from scratch for product listings and bulk orders; optimised for 10,000+ high-volume daily transactions.

Distribution System — Transport Management

[NestJS](#) · [TypeScript](#) · [PostgreSQL](#)

- APIs for full consignment lifecycle tracking, modelled on large-scale logistics platform patterns.

Resume Done — Automated Job Search Platform

[Node.js](#) · [Puppeteer](#) · [REST APIs](#)

- Integrated third-party APIs and implemented Puppeteer-based web scraping for automated job discovery.

EDUCATION & CERTIFICATIONS

B.Tech in Computer Engineering · Uka Tarsadiya University · CGPA: 9.01 · 2018 – 2022

- The Complete JavaScript Course — Udemy
- The Complete Node.js Developer Course — Udemy
- Hackathon (SSIP) — UTU
- [AWS Certified Developer – Associate](#) (In Progress)
